ChartMaker® Clinical Release Notes

ChartMaker® 2022.1 (fv6.7.5)

Important Notifications

- **Upgrade from Microsoft Server 2008/2012 and Windows 7/8 –** Since January 2020, your **Windows 7/8** workstations and **Microsoft 2008 Servers** are no longer supported. Likewise, support for **Windows 8.1** will end on January 10, 2023, and support for **Windows Server 2012/2012R2** will end on October 10, 2023. Even with security patches, **problems may still arise** if you choose not to upgrade. In addition, your workstations are not HIPAA compliant. To avoid these issues, contact our **Technical Services Department** today.

- **SQL Server 2016 & the ChartMaker 2018.2 (File Version 6.3.3) Upgrade –** Beginning with ChartMaker 2018.2 (File Version 6.3.3) Upgrade, a warning message will appear upon the completion of the upgrade regarding the transition of the ChartMaker Medical Suite to using SQL Server 2016, for those offices where an automated upgrade to SQL Server 2016 was not possible. See the figure below. If you are receiving this message, to avoid potential issues and to ensure your system remains HIPPA compliant, it is important to contact either STI Hardware Helpdesk, or your software vendor, to review your options.

ChartMaker Medical Suite SQL Server 2016 Warning

Added Features

- **Immunization Registry – CT WiZ –** The CT Wiz program has been updated to adhere to their June 2023 HL7 specifications and requirements when sending immunization information for this registry.

- **Immunization Registry – CT WiZ –** In previous versions a Primary Language (PID.15) format error could be generated for those files that contain language codes of **PDS** (Declined to Specify) or **O** (Other) are used for the patient. This issue has been corrected.

- **MIPS Dashboard – Quality –** The **Other Measures** area of the Quality Measure dialog has been updated with a **CMS951v1 Kidney Health Evaluation** measure for the 2023 reporting period. See Figure 1. This new measure replaces the CMS134 Diabetes: Medical Attention Nephropathy measure which was removed for the 2023 reporting period. This new measure allows you to report, if applicable, the percentage of patients aged 18-75 years with a diagnosis of diabetes who received a kidney health evaluation defined by an Estimated Glomerular Filtration Rate (eGFR) AND Urine Albumin-Creatinine Ratio (uACR) within the measurement period.

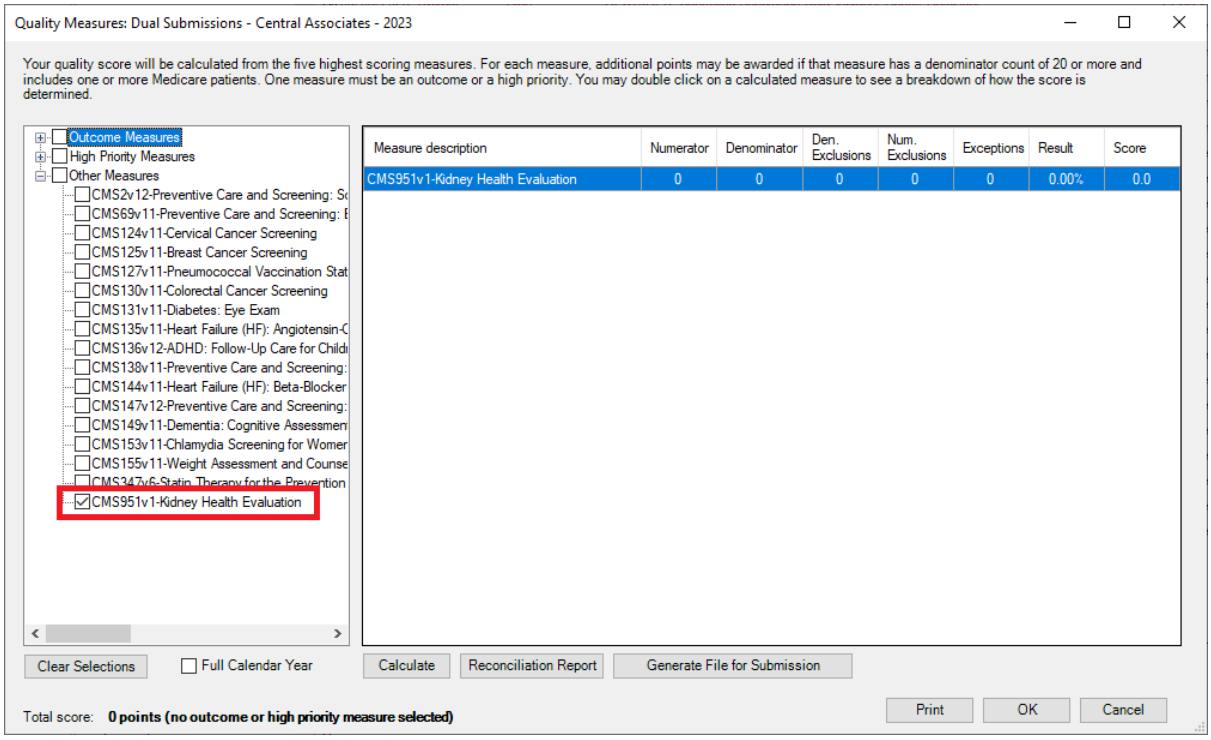

Figure 1 – Quality Measures – 2023

- **MIPS Dashboard – Quality –** In previous versions when printing results for the **CMS 159v10** (for MIPS 2022) and **CMS 159v11** (for MIPS 2023) **Depression Remission after Twelve Months** measure, located in the Outcome Measures area, the denominator and numerator results were not displaying properly in the printed output. This has been corrected.

- **MIPS Dashboard – Quality – 2023 –** In previous versions when running the results for **CMS 165v11 Controlling High Blood Pressure** (located in Outcome Measures), **CMS 68 Documentation of Current Medications in the Medical Record** (located in High Priority Measures), and **CMS 69v11 Preventative Care and Screening: Body Mass Index (BMI) Screening and Follow-Up** (located in Other Measures), a System out of memory exception error and/or a Problem calculating results error could be generated causing the results not be calculated for these measures. This issue has been corrected.

Added Features (continued)

- **The Note Tab – Diagnosis –** The **ICD10 Code Set** field, in the ICD10 Search and Crosswalk areas of the Diagnosis Search dialog, has been updated with an **October 1, 2023 – Sept 30, 2024** code set when searching for diagnosis codes or using the crosswalk functionality. In addition, the ICD10 Search and Crosswalk areas for this new code set have been updated so that whenever a diagnosis is mapped to an HCC (Hierarchical Condition Categories) code, an **(HCC)** indicator will appear after the diagnosis description to easily identify these diagnosis codes. You can toggle between the Oct 1, 2014 – Sept 30, 2016 code set, the Oct 1, 2016 – Sept 30, 2017 code set, the Oct 1, 2017 – Sept 30, 2018 code set, the Oct 1, 2018 – Sept 30, 2019 code set, October 1, 2019 – Sept 30, 2020 code set, October 1, 2020 – Sept 30, 2021 code set, October 1, 2021 – Sept 30, 2022 code set, October 1, 2022 – Sept 30, 2023 code set, and All ICD10 Codes, in addition to this new code set. This allows you to easily search for the applicable ICD10 codes that are active, as outlined by the CDC, for the applicable date ranges. When accessing the Diagnosis Search dialog when adding or editing a diagnosis in the chart note, the system will default to the code set based on the **Note Date** to ensure that the proper ICD codes for that date are selected.

- **The Note Tab – Order Procedure – Immunizations –** The program has been updated to ensure that the latest CVX codes and CVX mappings, MVX codes and MVX mappings, Manufacturers, and NDC codes, per the latest CDC guidelines, are used for immunization procedures.

- **System Tables – Diagnosis Search –** The **ICD10 Code Set** field, in the ICD10 Search and Crosswalk areas of the Diagnosis Search dialog, has been updated with an **October 1, 2023 – Sept 30, 2024** code set when searching for diagnosis codes or using the crosswalk functionality. In addition, the ICD10 Search and Crosswalk areas for this new code set have been updated so that whenever a diagnosis is mapped to an HCC (Hierarchical Condition Categories) code, an **(HCC)** indicator will appear after the diagnosis description to easily identify these diagnosis codes. You can toggle between the Oct 1, 2014 – Sept 30, 2016 code set, the Oct 1, 2016 – Sept 30, 2017 code set, the Oct 1, 2017 – Sept 30, 2018 code set, the Oct 1, 2018 – Sept 30, 2019 code set, October 1, 2019 – Sept 30, 2020 code set, October 1, 2020 – Sept 30, 2021 code set, October 1, 2021 – Sept 30, 2022 code set, October 1, 2022 – Sept 30, 2023 code set, and All ICD10 Codes, in addition to this new code set. This allows you to easily search for the applicable ICD10 codes that are active, as outlined by the CDC, for the applicable date ranges. When accessing the Diagnosis Search dialog via the **Edit** > **System Tables** menu, the system will default to the code set based on the current day's date.

- **System Update – LOINC Codes –** The program has been updated to use the 2.74 version of LOINC codes, LOINC Panel and Forms throughout the system.

- **System Update – SNOMED Codes–** The system has been updated to use the latest version (March 2023) of SNOMED codes, per the National Institutes of Health.
