ChartMaker® Clinical Release Notes

ChartMaker® 2022.1 (fv6.8.2)

Important Notifications

- **Upgrade from Microsoft Server 2008/2012 and Windows 7/8 –** Since January 2020, your **Windows 7/8** workstations and **Microsoft 2008 Servers** are no longer supported. Likewise, support for **Windows 8.1** will end on January 10, 2023, and support for **Windows Server 2012/2012R2** will end on October 10, 2023. Even with security patches, **problems may still arise** if you choose not to upgrade. In addition, your workstations are not HIPAA compliant. To avoid these issues, contact our **Technical Services Department** today.

- **SQL Server 2016 & the ChartMaker 2018.2 (File Version 6.3.3) Upgrade –** Beginning with ChartMaker 2018.2 (File Version 6.3.3) Upgrade, a warning message will appear upon the completion of the upgrade regarding the transition of the ChartMaker Medical Suite to using SQL Server 2016, for those offices where an automated upgrade to SQL Server 2016 was not possible. See the figure below. If you are receiving this message, to avoid potential issues and to ensure your system remains HIPPA compliant, it is important to contact either STI Hardware Helpdesk, or your software vendor, to review your options.

ChartMaker Medical Suite SQL Server 2016 Warning

Added Features

- **The History Tab –** The program has been updated to improve the performance when opening the History tab to a specific category/button (Allergies, Annotation/Miscellaneous, Diagnoses, Family History, Medications, Patient History, Procedures, Results, or Surgical History). Likewise, wait cursors (i.e., loading icons) have been added to the History buttons to offer a visual indication that the data is loading when switching between buttons when there is a large amount of data to populate for the button that may take additional time.

- **The Note Tab – Order Procedure – Immunizations –** The program has been updated to ensure that the latest CVX codes and CVX mappings, MVX codes and MVX mappings, Manufacturers, and NDC codes, per the latest CDC guidelines, are used for immunization procedures.

- **System Update – LOINC Codes –** The program has been updated to use the 2.78 version of LOINC codes, LOINC Panel and Forms throughout the system.

- **System Update – SNOMED Codes–** The system has been updated to use the latest version (March 2024) of SNOMED codes, per the National Institutes of Health.
